

Changing Places

Changing Places

placeable

**PLACEABLE** is leading Australia's transition to a more able place.

We are a full-service accessible portable bathroom provider and an organisation that offers an Australian Changing Places facility that meets the intent of the information guide and technical standards. From design and delivery to installation and maintenance, we provide a one-stop-service solution for government groups, health care operators, private citizens involving the NDIS, city councils, department of human services and community organisations.
